

TS Series

TRUCK SCALE

CI920182

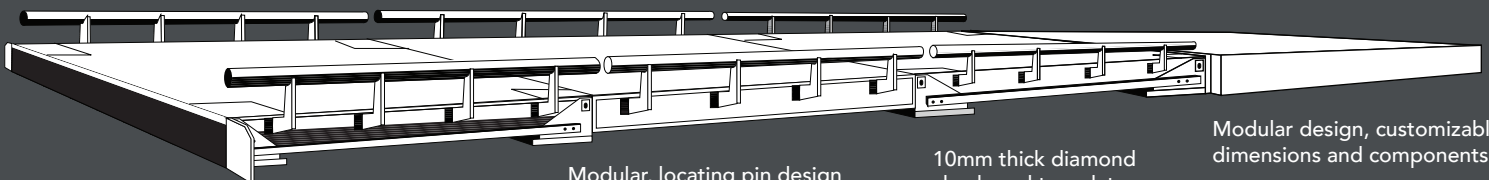

DESIGNED WITH
CANADIAN DEALERS
FOR THE CANADIAN WINTER

FEATURES

- Portable and concrete options are available
- Engineered and optimized with direct involvement from scale dealers across Canada
- Designed for portability and easy installation
- Manhole option available
- Self-centering shear beam design to minimize failures and maintain accuracy

PLATFORM

Bolt on guard rails

Consistent, full-penetration
welds for maximum strength

Modular, locating pin design

10mm thick diamond
checkered top plate

Modular design, customizable
dimensions and components

ANYLOAD[®]

ANYLOAD is an integrated manufacturer specializing in the development and production of load cells, scales, and weighing components, headquartered in Burnaby, BC, Canada.

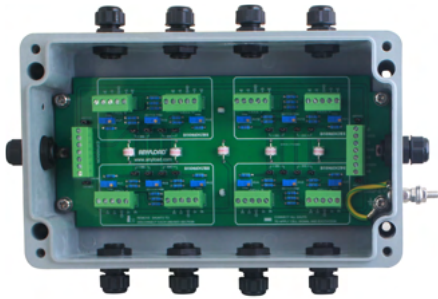

Established in 1991, we have expanded our international reach to include offices and warehouses in Canada, the US, and China.

Our mission is to provide innovative weighing solutions that deliver uncompromising performance with dependable service.

ANYLOAD

PRODUCT INCLUDES

8- AND 4- CHANNEL FIBREGLASS JUNCTION BOX*

- Impact & corrosion resistant fiberglass case
- GORE Breather & rubber gasket to minimize condensation
- Individual and section trimming, removable terminals

102BH AND M1 COMPRESSION WEIGH MODULE*

- 102BH double ended shear beam load cells
- 102BHM1 self-checking mounting modules
- Double-ended beam design naturally eliminates possibility of rotation and lateral displacement

As a load cell designer and manufacturer, we understand how even the smallest variations in load cell and weighing accessories can significantly impact a scale's reliability and lifespan. Our commitment is to provide you with durable, long-lasting weighing solutions that exceed expectations.

PRODUCTION TIME & SHIPPING

- 75 day production lead time + ocean freight
- Ships ready-to-assemble from Vancouver & Halifax
- From order to delivery: ~16-18 weeks.

ADDITIONAL OPTIONS

- Stainless steel IP68 load cell upgrade
- Braided steel cable or conduit for rodent & pinching protection
- Guard rail customization
- Remote display, with traffic light and wireless upgrade options

REMOTE DISPLAY

- Universal compatibility (RS232/485)
- Rust-resistant, weatherproof chassis
- Traffic light option available
- Wireless upgrade available

808AH

808BH

OUR DEALERS ALSO OFFER:

- Computerized scale house setup
- Bar code systems
- Printers
- Digital weight indicators, etc.

**Actual product may differ slightly from pictures*
